KENTUCKY'S INFAMY.

THE Federation of Labor at Kansa City appears to have usurped the power of Congress at Washington.

COLONEL D. G. COLSON of the Fourth entucky will be a candidate for the epublican nomination for Appeliate adge from the Third District.

THE National Bank of Cyuthiana has \$591,110 44 in individual deposits—\$391.
110 of which probably belongs to Editor
JIM ALLEN and 44 cents to the other newspaper man of that enterprising city

THE Agricultural Department estimates the crops of corn and oats for 1898 as worth \$85,000,000 more than the same crops for 1897. Is Secretary ALORS or the defaat of BILL Jun BRYAN responsible for this—both or which?

THE American Federation of Labor In its annual convention at Kansas City adopted resolutions opposing a large standing Army and the policy of Expansions. Fortunately there is no law which prevenus these monthsmiths from making fools of themselves

THE country's all right now. WILLIAM JERMINGS BEYAR, having failed to save the country with his sword, resigned his commission and has now enlisted in the work of saving it with his mouth, which is, with him, a much more formidable weapon than the sword

To several of his friends at Washington Mr. Buyan said that the issues af 1900 would be above of the last Chicago platform, with an assit Expansion plank added. Doese't the Colonel think the Free Silver foroibinans heavy enough to sink the old acow without adding the anti-Expansion lumber?

SINCE President McKiniar has been peaking to the Southern people some one as proposed Major McKiniar and Garaf Je. Williams as the ticket for 1900 flowy would make an lovincible team,—tyderdeal and a Oonefeerstee soldier,—and he way they would sweep the country North and South, would put a Kanasaystone among the back numbers.

THE anti-Expansionists are just now wribly concerned lest President McKim my is going to permit the Constitution to abblesses of the constitution to going to permit the Constitution to going to permit the Constitution to the constitution to the constitution to the constitution of t

ed since that year.

THE Federation of Labor adopted

THE Federation of Labor adopted a resolution at Kanass City deaouseling "an autocratic Nary." The Times-Star remarks that it is the first word that has been spoken against the Navy since Diswar won his glorious victory. Most of as will thank Goo that the Navy was "autocratic," if "autocracy" had anything to do with the battle of Manila Bay and the 53 of July.

The protest of labor organizations against a standing Army is easier to understand. Yet the increase proposed by Congress mans practically the taking of 100,000 man from the laboring classification of the competition of absolutely nothing tender to the competition of absolutely nothing tenders, where esterprise, chasp labor and modern analization of the congress of the condition of the congress of the competition of absolutely nothing tenders and absolutely nothing tenders and analization of the congress of th
